5000 Mike Scholl Street (media center)

Please enter the building through Door #13 on the north side. Parking is available on the north side of the school.

You're invited...
to a **PUBLIC
MEETING**

about the NW 48th Street roadway project

Construction for the segment of NW 48th Street between W. Vine Street and W. Adams Street is scheduled to begin in April. Some private utility construction has already started, and site prep and initial grading will likely take place in March.

Currently a two-lane roadway, NW 48th Street will be constructed as a four-lane divided road between W. Holdrege Street and Highway 34. South of W. Holdrege Street, the road has been designed as a six-lane road to match NDOR's interchange project,

though only five lanes are being built now. The segment between W. Adams Street and Highway 34 is not scheduled for construction at this time, but preliminary design plans have been completed.

Please join us for the project's fourth public meeting — stop by anytime between 5:30 and 7:30 p.m. on March 19. The project team, including the contractor - K2 Construction, will be available to discuss the project phasing and schedule, traffic routes during construction, and to answer your questions.
